WINTER & MAILBOXES

Shake your mailbox – is it winter ready?

Kindly check the condition of your mailbox
before winter sets in. Make sure the post is
secure, the box is properly attached, and the
box is in good shape with a secure door. Our
snowplow drivers take precautions to avoid
striking mailboxes with their plows. Often, just the weight of the
heavy snow can be enough to snap a poorly maintained pole or
crush a plastic mailbox. Please note that Pennsylvania law views
mailboxes as an encroachment in the public way, put there at the
owner's risk, and municipalities are not legally liable for any damage
or repairs to mailboxes due to plowing operations. If you have an
expensive mailbox, consider replacing it during the winter months
with a less expensive one.
